

AP HUMAN GEOGRAPHY

Instructor: Ms. Stevenson
mstevenson@theoakwoodschool.org

Please be proactive and email me with questions during the summer if you are unsure about something. I am looking forward to working with all of you. This is a great subject, and I think you will really enjoy it.

Before we can study the human interaction with the physical environment, you need some basic knowledge of physical location knowledge. At the end of the first week of classes, there will be a comprehensive map test. Therefore, use the summer months to learn the key physical features and political units required.

- world regions and countries
- major bodies of water
- major deserts and mountain chains
- states of the United States

I am providing maps that identify all the locations and designations for the test.

Below are 2 useful websites to use when studying:

Sheppard Software <http://www.sheppardsoftware.com/Geography.htm>

Lizard Point <http://lizardpoint.com/geography/>
